LET IT BE REMEMBERED,

Muchines in use there are but three kines of Stitches made

1st. The Grover & Baker Stitch. 2nd. The Shuttle Stitch.

3rd. The Single Thread or Chain Stitch

The Grover & Baker stitch is the only patented stitch, and i strictly adapted to family use. The stitch is double, cannot be ripped. The machine making this stitch, sews from two common spools - using no shuttle, requiring no thread to be re-spool ed, and finishes its own . wrk, it is the most simple, less liable to derangement, and most easy to learn and operate of any in use, possessing a greater range of capacity for family purposes, than any other other or perhaps all other kinds.

2nd. The Shuttle Stitch.

This stitch is made by the following list of machines't

I. M. SINGER & CO., WHEELER& WILSON WEAD MACHINES, BARTHELF MACHINES. LEAVITY & CO...

LADD & WESSTER. A. B. HOWE, FINELE & LYONS.

So far as the stitch is concerned, this list of machines are precisely alike, are all Shuttle Machines, and for carrying th wer or ender thread all use shuttles, into which all the unde thread used on each and all of them have to be re-wound.

The capacity of the shuttles used in these machines is nearly the same, they hold when filled with Coats' No. I Speci Cotton not to exceed 14 yards.

The shuttle stitch is sometimes called the lock stitch for effect but it is all one and the same. The stitch is made by merely but it is all one and the same. The stitch is made by morely crossing two threads. The ends of all seams sewed by the Shutti Machines must be fastened by the hand needle to prevent ripping the corpus of College and Union streets, where can be found a good association is better adapted to manufacturers than fe Stockings, Knuc Cape, Anklets, &c.

nature—that he deems it his duty, wen at the hazard of which
he has spoken, to make known to the world in the most public
manner possible, these extraordinary and invaluable properties
of his manufacture. of his minufacture

It is not his purpose to recite in detail, a list of those discusses
of the human system which have been known to be most favorably
affected by the use of this stimulant. They are particularly described in the various testimonials spoken of, which are open at
all times to the inspection of our f.iend. but which we do not
feel at liberty without special permission of the distinguished
persons who have sent them to us, to paralle in the public newsnever. suffect to say, that the diseases alluded to comprise all such Tropical Latitudes, to a Change of Climate or Diet,
or to any other cause which disarranges or impairs the operant functions of the burnan system; inductor languo, lassitude and depression, and the multitudinous ills flowing from this source.
